Note #1—Outcomes—Actual Number Funded—The actual number funded is based upon the awards made during the program year. The final actual outcomes/accomplishments from each grant awarded by the state will be collected when the grant activities are complete and the grant contract between the city/county and the state is administratively closed and will be reported in IDIS as part of the CAPER. Each grant recipient is allowed a specified period-of-time to complete the CDBG funded activities and this time-period varies by type of grant. This time-period is referred to as the Project Completion Date (PCD). The state allows PCD extensions if the local circumstances warrant the extensions. Each PCD extension is reviewed on a case by case basis. A summary of the standard PCD time periods are:

- 1 year PCD—Applies to microenterprise assistance grants and housing center grants.
- 2 year PCD—Planning grants, final design only grants, construction only grants, off-site infrastructure grants and housing rehabilitation grants.
- 3 year PCD—Final design and construction activities combined into one grant.

Note #2—The state may select activities/priorities for the 2016-2020 CDBG program from the table above. The proposed outcome and performance measure requirements, performance indicators and the short- and long-term goals for each activity will only be triggered, if the activity is actually offered by the program.
