**Action Minutes**

- 1) Welcome and Review of Action Minutes (February 2021)
  - a) Action Minutes for the February 2021 meeting were distributed.
- 2) In Water Work Permitting (State Regulations)
  - a) The Department of State Lands representatives shared how the *State Water Related Permit Guide (2012)* and *Aquatic Resource Management (2017)* permitting resources were historically developed. The group confirmed the materials would benefit from an update, expressing appreciation for any permitting process that is consistently managed and that stresses efficiency and cost savings. The state agency offered to convene a work group of regulatory state agencies to update permitting resource(s) for port districts accordingly. Though lacking a regulatory mission, Business Oregon offered to help in support of Oregon's public ports.
  - b) Additionally, the agency fielded questions from ports about:
    - i. Permitting experiences (disposal sites: upland focus on wetland mitigation, in water focus on identifying sedimentation materials, ocean disposal increasingly rare),
    - i) Best practices (keep wetlands graded), and
    - ii) Need for further intergovernmental coordination (removal of abandoned and derelict vessels; advanced mitigation logistics and funding).
- 3) Good of the Order
  - a) Update on US ACE matters (2021 Work Plan Projects, Annual Maintenance, MOA) in anticipation of the federal agency attending the May 2021 OPPDP meeting.
- 4) Next Meeting Logistics
  - a) Date/Time: April 28, 2021
  - b) Location: Microsoft Teams
  - c) Agenda: To be distributed one week prior
  - d) Topic: Debrief 2020-2021 Annual Project; Federal Regulations
